

APPRENTICESHIP GUIDE

Gas, Plumbing and Electrical Apprenticeships

APPRENTICESHIPS – the start of your career!

Steve Willis Training Centres are specialists in gas, plumbing and electrical apprenticeships with over 15 years' experience. Our well-equipped, modern training centres in Sussex and Hampshire are easy to get to by car or public transport. Our professional trainers have worked in the industry and will guide and support you throughout your apprenticeship.

What is an apprenticeship?

It's a mix of on the job training with an employer and off the job training at our training centres. An apprenticeship includes practical and classroom sessions. You have a contract of employment with your employer, and are paid throughout your training.

Apprenticeships provide a great opportunity for new entrants to take their first steps towards a successful career. Government funding may be available for all or part of your course fees.

Why choose Steve Willis Training Centres?

- ✓ We are specialists in gas, plumbing and electrical apprenticeships
- ✓ Modern, purpose-built training centres
- ✓ Smaller class sizes producing excellent pass rates
- ✓ Our trainers have industry experience working on and off the tools
- ✓ More training days than most FE colleges
- ✓ Help with finding an employer and support throughout your apprenticeship
- ✓ Flexible entry criteria based on aptitude and enthusiasm

Why do an apprenticeship?

- ✓ Earn while you learn
- ✓ Get your career started
- ✓ Gain an industry recognised qualification, including Functional Skills in English, Maths & ICT
- ✓ Gain valuable work experience as you train

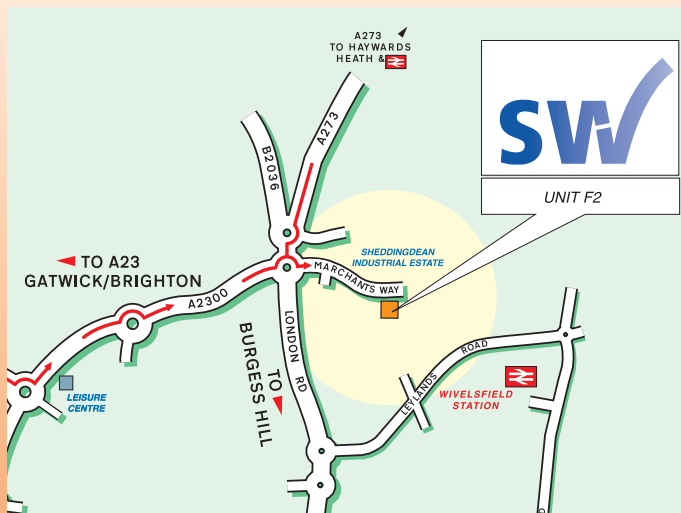

If you are an employer and looking for apprentices, contact us to see what Steve Willis Training can offer you.

Here's what some of our apprentices say about us:

“ I have enjoyed developing new skills, gaining my qualifications, and receiving very good training from my mentors. Steve Willis Training Centres has the the best trainers and they are very experienced in plumbing. Doing an apprenticeship has made me gain confidence and it has given me so many opportunities. ”

Gemma Pope, Plumbing Apprentice

“ When I checked out the Training Centres, I noticed that Steve Willis Training had good reviews. I also had a couple of friends who went there and said it was really good, and it was local! I really enjoyed meeting other like-minded people and learning a skill that can set me up for life! ”

Roman Scott, Electrical Apprentice

“ I really enjoyed training at Steve Willis Training Centres. The staff were really supportive and I received regular feedback on my progress. I have skills for life now and real career prospects, and I feel confident about my future which is something I have never had before. ”

Jennifer Reeder, Gas Apprentice

“ Steve Willis Training Centres is a great place to attend. All members of staff are very welcoming and reassuring. If I have any problems I know they'll help me deal with them straight away. Brilliant!! ”

Bradley Parsons, Gas Apprentice
