Weekly Newsletter

Issue 219: Friday 22nd May 2020

Message from The Editor, Miss Barker

On Wednesday it was National Thank A Teacher Day! Thank you to every member of staff, teaching and support, at Warblington School for your continued hard work during these difficult times and always! You are all superstars! Poppy R Year 10 has a lot of staff she would like to thank as you can see in the photo to the right. Brilliant work Poppy! A few of these thank you posters can be seen in this newsletter.

Last week we had a fairy cake decorating competition organised by Mrs Gregory as well as the MFL Challenge, you will find out the winners in this newsletter!

Both Jamie H & Fred D play football for the Widbrook Whirlwinds and they have recently been awarded for their hard work this season. This probably wasn't the award ceremony they are used to but the team manager is clearly very proud of his team and these two boys. Well done to you both!

Jamie received the Managers Trophy: 'This trophy goes to a lovely lad, with a great attitude and a willingness to work hard and play where ever he is asked. He has a real talent and is a pleasure to manage.'

Fred received the award for the Players Player: 'This trophy is, as I say every year, the most important trophy, as the votes are from your team mates. Fred's improvement is constant, his attitude is brilliant and he is a great leader! That's why he is my and the team's captain! Well done Fred! Great season! Thank you for giving your all always!'

The photo to the left is from last years ceremony. They clearly are consistently fantastic players and team members!

I would like to apologise to Mr Barnard for my misprint in last week's newsletter. For his #twopointsixchallenge Mr Barnard challenged himself to complete a 10 mile bike ride every day for 26 days! What a challenge! He has almost completed his challenge, just a couple more bike rides to go! You can do it!

It certainly has been a week to celebrate this week with challenges, competitions, personal achievements and National Thank A Teacher Day! It doesn't take a lot to brighten someones day by saying thank you or showing your appreciation so why not make some ones day and say thank you!

GCSEPod Webinars

GCSE Pod are offering a one hour comprehensive webinar session to parents on how they can best support their child. Here are the available sessions.

Parent Webinar - Introduction to GCSEPod

May 21, 5:00 PM - https://us02web.zoom.us/webinar/register/WN_Jhb4DKAwRbChxt9C7-X9BQ

Year 7 Drama

In Drama this week we have been creating costume designs for our Commedia topic.

Here are two examples by Ruby S (left) and Irina U (right)

Well done to you both and to everyone who completed the task, keep up the great work!

Mrs Whiteley-Fuller, Drama

Home Baking

Sophie M Year 7 has been baking at home! Well done Sophie, its looks delicious and you're piping work is brilliant.

Home baking has been a clear favourite activity with our KS3 students, your families are very lucky to have such tasty treats coming out of your kitchens. Keep up the great work and we enjoy seeing photos of your bakes.

Students of the Week

8A - Merve S & Peter C

8D - Hayley S & Tristan B

8B - Maisy R & Ioana N

8E - Sarah T & Jake H

8C - Rebecca F & Ben C

10A - Poppy R & Callum B

Well Done!

@WarblingtonSchool

@WarblingtonSch

MFL Challenge

French vs Spanish

The results are in and the winner is...

FRENCH!

with 520 points, Spanish 360 points!

A huge well done to everyone who took part & worked on their language skills at the same time!
You had to make sure your translations were accurate and your photos were consistent to prove you had taken the pictures. Some of students and staff got quite creative with the task!

Megan H Year 7 and Miss Barker proved that 'great minds think alike' by using the same object in each of their photos, must be something to do with having the same first name. Megan featured her Dachshund Mini and Miss Barker featured her 'just as real' Dachshund Doug.

Miss Uguen & Mr Bruce, MFL

Fairy Cake Decorating Competition

Last week baking fever hit Warblington in the form of a Fairy Cake Decorating Competition organised by Mrs Gregory. On Thursday, the students in school took on the challenge to make fairy cakes and exquisitely decorate them, the challenge was extended to our whole school community. Mr Crabtree, our Chair of Governors had the tough task of picking a winner and the results are in... drum roll please...!

Best Student Decorated Fairy Cake

Zach B Year 10

Best Staff Decorated Fairy Cake

Mrs West

'Thank you everyone for entering the fairy cake competition and well done on providing some scrumptious looking cakes. I am disappointed not to have been able to taste your wonderful offerings but hope that you enjoy eating them. It is always difficult to nominate a winner for such competitions especially when relying on photographs so please don't be too disappointed if its not you. It's the taking part that counts! Imagination and artwork are key ingredients for this type of competition so it was good to see a variety of decoration employed. As there were a mixture of staff and students I have selected the best staff and best student.

Best Student Decorated Fairy Cake goes to Zach B: Congratulations Zach! I liked the imagination you put into your decorating and the different artistic effects that you created.

Best Staff Decorated Fairy Cake goes to Mrs West: Congratulations Mrs West! You have put a lot of imagination into your entry together with some very fine artwork. I am sure they tasted delicious too!

Congratulations to the winners and to you all for entering. I am sure that by now the scrumptious cakes are well and truly scrumped!' **Mr Crabtree, Chair of Governors**

Fairy Cake Decorating Competition

'Well done to everyone for taking part!' Mrs Gregory, Assistant Headteacher

Geogogglebox

Some of our students have decided to do some independent learning, which is a great skill to have as a Geographer and a learner. Here is Sophie M's (Year 7) Coral Reef work, which is a great incite into the Butterfly Fish and the Hump Head Parrot Fish.

CORAL REEF

Butterfly fish:

 The majority of butterfly fish have long pinnacles which makes them ~~appear~~ at ~~ground~~ feeding. They mainly eat algal corals and sponges. Some butterfly fish are omnivores and occasionally they will eat tiny crustaceans and planktonic animals.

Humphead parrot fish:

 The humphead parrot fish can also live through rock. They are extraordinary creatures with their ultra-strong jaws, they eat coral reefs (and rock) and ~~deposits~~ sand - which in turn becomes the tropical beaches we know and love.

GLOSSARY
 adept - very skilled at something
 crevice - a narrow opening
 Crustaceans - an animal with an exoskeleton
 defecate - discharge feces from body
 omnivores - eats varied food
 planktonic - an adult animal that can't swim against the current

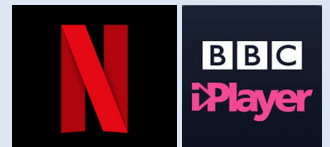

Feedback:
 Fantastic work.
 Well done!
 10/10

Use this time to explore the Geography we don't always have time to look into in normal lessons. There are loads of documentaries on the BBC iPlayer and Netflix if you have access to these players.

When exercising outside the house look at your surroundings and use your senses. Remember to wash your hands afterwards. Do some bark rubbings or press some flowers.

Or use some recyclables to make bird feeders. Even get some seeds as part of your essentials if you can and plant some vegetables or herbs.

Netflix: Blue Planet, Blue Planet 2, Our Planet, Planet Earth, Planet Earth 2, 72 Dangerous Animals, 72 Cutest Animals, Wild Caribbean, Frozen Planet.

BBC iPlayer: Primates, The Great Reindeer Migration, Dynasties, Life, Africa, Severn Worlds, One Planet

The Geography Department can't wait to hear your Geographical experiences!
Mr Strzelec and Mr Crowe

Science

Discovery of DNA leaflet by Kayden C Year 10

The Discovery theory that all species are descended from a common ancestor

The discovery of DNA's structure was created by Rosalind Franklin using a technique called crystallography it revealed the helical shape of the DNA molecule. Watson and crick realized that DNA was made up of two chains of nucleotide pairs

that encode the genetic information for all living things.

Further Discoverys It was later discovered that all animals and plants share the same DNA code for the proving Charles darwins

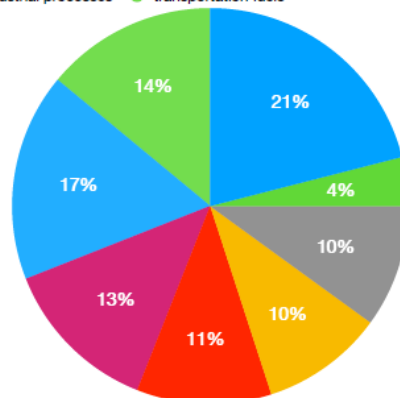

-Adenine
-Thymine
-Cytosine
-Guanine

Greenhouse Gasses by Jamie H Year 8

Industrial revolution and the first coal power station are the to that caused the most damage towards global warming seeing as the industrial revolution lasted 100 years and the first coal power station is extremely hot and gives off a lot of smoke.

I think it has effected global warming in a very bad way seen as now global warming is probably gonna cause countries to be submerged underwater in the sea.

- power stations
- waste and disposal
- biomass burning
- residential
- fossil fuel
- agricultural products
- industrial processes
- transportation fuels

Warblington School Lockdown Premier League

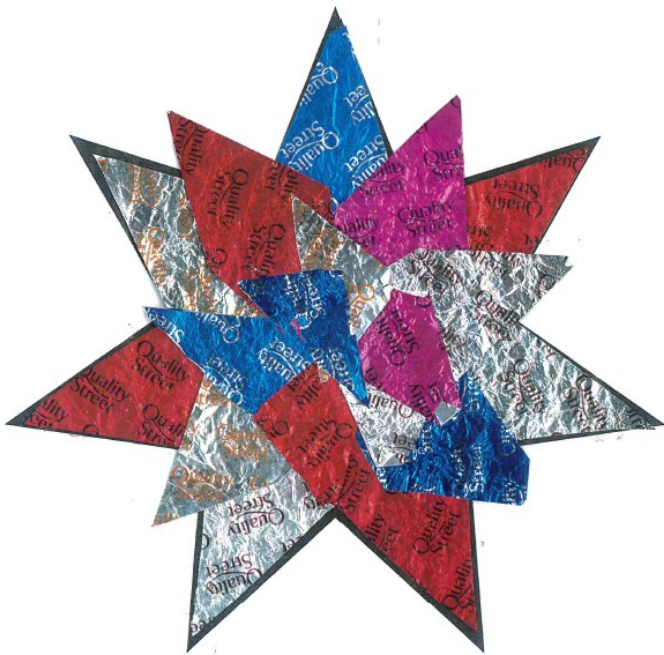

Match week 8 (Up until the afternoon of 20th May)

Position	Team	Points
1	Freya W-H	309
2	Oliver F	270
3	Archie H	267
4	Millie S	245
5	Aleem P	237
6	Jack T	230
7	Jack W	228
8	Ethan R	226
9	Sophie A	212
10	Amber H	202
11	Eloisa D-E	183
12	Thomas W	162
13	Alicia E	155
14	Rees J	145
15	Ewald K	144
16	James LG	141
17	Macey B	141
18	Lily S	137
19	Matthew W	135
20	Aksh J	135

There is now a gap at the top of the league. Can anyone catch Freya? There are quite a number of you who have over 100 points who have not quite made into the premier lockdown league this week. Keep trying, maybe you will make it for next week. Pride points will be awarded to everyone who accesses GCSE Pod sometime in the next week. Any issues logging in, any general queries or any examples of creative projects you have been working on please contact Year9@warblingtonschool.co.uk. Take care everyone.

DID YOU KNOW?

Our train tracks and overhead line are **NEVER SWITCHED OFF.**

The stopping distance of a train with the emergency brakes on is the length of **20 Premier League football pitches** 2000 metres.

Throwing items at trains or placing objects on track the maximum sentence given can be **life in prison.**

No one is authorised to cross a level crossing on a red light **not even the emergency services.**

A average train weighs over **400 tons** which is equal to **80 large elephants.**

No trespassing

If you trespass on the railway and get caught the maximum fine is **£1000.**

In England and Wales you are criminally responsible and could be **imprisoned from the age of 10.**

Yellow line on a platform is to **warn you** that trains can pass at high speed and create air turbulence - **never cross the yellow line** until your train has come into the station and stopped.

When at a train station or travelling on trains **always** be aware of your surroundings
