

GEOGRAPHY

YEAR 11

How might technology improve water availability?
What factor cause water supply problems?
What factors affect water consumption?
How can energy resources managed in the UK?
What causes differences in energy mix?
How can energy resources be managed?
What are advantages and disadvantages of energy resources?
How can we classify natural resources?
What factors influence Nigeria's development?
What are the consequences of uneven development?
How has Portsmouth changed over time?
How are the challenges being managed in Lagos?
What is the context of Portsmouth as a UK city?
What factors have caused rapid changes to Lagos?
Why do people move to cities?
What is a megacity?
How successful is coastal management?
What causes flooding?
How do animals adapt to cold environments?
FIELDWORK: To what extent has Gunwharf Quays impacted Portsmouth?
How do river change downstream?
What processes create distinctive landforms?
How do processes shape coastal landscapes?
How successful is river management?
What causes waterfalls to form?
What processes shape river landscapes?
Why does the UK have upland and lowland landscapes?
How can measure weather?
Why does it rain?
What is the difference between weather and climate?

YEAR 10

What's global atmospheric circulation?
How do tropical storms form?
What is extreme weather?
Earthquake Case Study.
Where are the world's earthquakes and volcanoes?
What the atmosphere, biosphere and lithosphere?
What is risk and how to minimize it?
What is fieldwork?
How can we live sustainably?
What are the different types of pollution?
How has the UAE developed?
Why is the Middle East important?
How can measure weather?
Why does it rain?
What is the difference between weather and climate?
What is the distribution of UK terrestrial ecosystems?
Amazon Case Study.
How do animals adapt to hot deserts?
What is a cold environment?
Why are cold environments valuable?
What are the UK's physical environments?
Why does the UK have upland and lowland landscapes?
How do animals adapt to hot deserts?
What is a cold environment?
Why are cold environments valuable?
What are the UK's physical environments?
How has the UAE developed?
Why is the Middle East important?
How can measure weather?
Why does it rain?
What is the difference between weather and climate?

YEAR 9

What's the distribution of UK terrestrial ecosystems?
What the distinguishing features of deciduous woodlands?
Why are tropical rainforests valuable?
What are the threats to tropical rainforest?
Why does development vary?
What's wrong with plastic?
How do we impact our surroundings?
Why is the world increasingly interconnected?
How do TNCs exploit people and places?
Why is Russia important?
How does climate affect a region?
Where are the major global climate zones?
Why is the Middle East population diverse?
Why is Russia's population so diverse?
How influential is the physical geography?
How does Russia effect us?
What are impacts of earthquakes?
Where are the world's earthquakes and volcanoes?
What is a natural disaster?
What is a natural hazard?
What is the role of Fairtrade?
How do animals survive in a desert?
What misconceptions do you I have about Africa?
How do rivers make places vulnerable?
What causes flooding?
How do river change downstream?

YEAR 8

What happens beneath our feet?
What is the structure of the Earth?
How successful are the sustainable development goals?
Why are there inequalities in Africa?
How is wealth distributed?
How can the impacts of flooding be reduced?
What causes waterfalls to form?
What are positives and negatives of China's rapid development?
How are these challenges managed?
How do waves alter coastlines?
How do these processes create landforms?
How can coastlines be managed?
Why is China globally important?
Why are more people living in urban areas?
What are China doing to manage water?
Why are coasts important?
What processes shape coasts?
How do glaciers shape the land?
Does crime happen at my school?
Why does crime happen in my area?
How high?
Why is where I live important?
What is Geography?

YEAR 7

How do glaciers shape the land?
How do glaciers shape the land?
How can I show my findings to others?
Which direction and how far?
Where am I and how do I get around?
How can I describe the Earth?
Why is China globally important?
Why are more people living in urban areas?
What are China doing to manage water?
Why are coasts important?
What processes shape coasts?
How do glaciers shape the land?
Does crime happen at my school?
Why does crime happen in my area?
How high?
Why is where I live important?
What is Geography?

welcome

'Geography is the subject which holds the key to our future.' MICHAEL PALIN
