Year 7 Netball

In the third week of the season, the team continued to demonstrated excellent team work and a secure understanding of the rules.

In the first fixture against Purbrook B, the girls and boys were victorious with an 8-0 win!

Olivia scored 3, Sydney 2, Erin 1 and Diego 1. These pupils were calm under pressure and made effective decisions when in and around the scoring D. Excellent support play to retain and build possession was demonstrated by Ellie, Phoebe and Mollee; whilst Daisy was nominated player of the match by her opponents.

In the second game of the afternoon, Warblington drew 3-3 in a tightly contested fixture against HTC. Mollee, Erin and Diego were the scorers with players rotating roles to enhance their understanding of each position, whilst supporting their team mates take up preferred roles. Diego was nominated player of the match by his opponents.

Arbor

If you have not already done so, please can all parents and carers log into Arbor.

Arbor is a really useful tool in keeping communication open with our families. Arbor allows parents and carers to sign students up to trips, after school clubs, top up lunch accounts and purchase items like pencil cases and ties. Please contact reception if you need an Arbor registration email to be sent out to you.

Year 8 Netball Fixtures

In the second week of the season, Warblington faced Purbrook, HTC and Oaklands.

Despite Warblington's best efforts within each fixture, unfortunately they were narrowly defeated in each.

B was calm under pressure and demonstrated excellent shooting technique, scoring 6 throughout the fixtures; whilst new player Sophia also scored! Adriana was nominated player of the match on two occasions due to her excellent passing and stealing possession through controlled interceptions.

Imogen was also voted as a player of the match in the middle fixture due to her excellent marking when playing GK and GD.

Mrs Griffin

Year 8 Boys Football

Another brilliant performance from the boys, this time against Park Community, seeing them win 5-0.

A strong squad of sixteen, with the introduction of Ashton, battled the freezing conditions. The game started quickly, with a large number of chances going the way of Warblington, Harrison enjoying himself running at their defence. Two goals came in quick succession both from well worked moves splitting Park's defence apart. The second half was much the same with Warblington being on top and all substitutes making positive impacts to the team, Jude and Harley doing an amazing job at swapping roles in defence. It was 3-0 the break.

The second half started at same tempo as the first, the quality just as high. The game stayed at 3-0 for a long time with both sides struggling to capitalise on chances, until Harvey met a Park clearance on the volley and smashed it home from 30 yards. Warblington scored again with the final kick of the game, Brooke seeing her shot saved well but the rebound being tapped in.

Another massive well done to the boys, who made a freezing cold night worthwhile. A special mention to Ashton who impressed us all in his first game.

Mr Bird

What Parents & Educators Need to Know about

SNAP STREAK

DAYS

SNAPCHAT

AGE RESTRICTION
13+

Snapchat is a messaging app which allows users to send images, videos and texts to others. Its best-known feature is that anything sent 'disappears' 24 hours after it's been viewed; however, users are known to take screenshots or use another device to obtain a photo of their screen. In 2023, Snapchat added a chatbot function called 'My AI'.

WHAT ARE THE RISKS?

ARTIFICIAL INTELLIGENCE

My AI is Snapchat's new chatbot, which replies to questions in a human-like manner. However, the question is still in its infancy and has significant drawbacks, such as biased, incorrect or misleading responses. There have already been numerous reports of young users turning to AI for medical help and diagnoses, which could be inaccurate and therefore potentially dangerous.

PREDATORS AND SCAMS

Predators can exploit Snapchat's disappearing messages by, for example, telling a user they have naked photos of them and will post them unless they're paid. Snapchat's own research found that 65% of teenagers had experienced this – on this app or others. This likely isn't helped by 'SnapMaps' – a feature which highlights your exact position in real-time. This is meant to help friends keep track of each other, but could be used for more sinister reasons.

MY EYES ONLY

Snapchat has a hidden photo vault called 'My Eyes Only'. Teens can conceal sensitive photos and videos from parents and carers in this folder, which is protected by a PIN. You can check for this by clicking on the icon which looks like two playing cards. This takes you to the 'Memories' folder which stores photos, stories and the My Eyes Only folder.

SCREEN TIME ADDICTION

Snapchat prioritises user engagement, with features like streaks (messaging the same person every day to build up a high score). The app also has sections called 'Discover' and 'Spotlight', which show tailored content to each user. However, this could also be seen as an attempt to hook users into watching videos endlessly. Furthermore, constant notifications can lure people into using the app.

INAPPROPRIATE CONTENT

Some content on Snapchat simply isn't suitable for children. The hashtags used to group content are determined by the poster, so even an innocent search term could still yield age-inappropriate results. The app's 'disappearing messages' feature also makes it easy for young people to share explicit images on impulse – so sexting continues to be a risk associated with Snapchat.

ONLINE PRESSURES

Although many of Snapchat's filters are designed to entertain or amuse, the 'beautify' effects on photos can set unrealistic body image expectations – creating feelings of inadequacy in younger users. Snapchat now also has 'priority' notifications (which still get displayed even if a device is in 'do not disturb' mode), increasing the pressure on users to log back in and interact.

Advice for Parents & Educators

UTILISE PARENTAL CONTROLS

Snapchat's 'Family Centre' lets you view the details of the child's account – their friends list and who they've spoken to in the last week – and report any concerns. You must invite a child to the Family Centre for them to join. To keep the child's location hidden on the app, go into settings and turn on 'Ghost Mode' and 'Hide Live Location', and ensure they know not to share their location with anyone.

BLOCK AND REPORT

If a stranger does connect with a child on Snapchat and begins to make them feel uncomfortable through bullying, pressure to send explicit images or by sending sexual images to them, the child can tap the three dots on that person's profile and report or block them. There are options to state why they're reporting that user – such as annoying or malicious messages, spam or masquerading as someone else.

FAMILIARISE YOURSELF

Before you allow a child to download Snapchat, download it yourself and familiarise yourself with the app. Snapchat has produced a parents' guide to the app to help you understand how it works and any protections they have in place. A link for this can be found in the sources below.

ENCOURAGE OPEN DISCUSSIONS

Snapchat's risks can be easier to handle if you nurture an open dialogue. For example, discuss My AI's responses to questions and how reliable they are. Talk about scams and blackmail before letting children sign up. If they're lured into a scam, encourage them to tell you immediately. Talk openly and non-judgementally about sexting, emphasising its inherent risks. Furthermore, explain how popular 'challenges' on the platform can have harmful consequences.

Meet Our Expert

Dr Claire Sutherland is an online safety consultant, educator and researcher who has developed and implemented anti-bullying and cyber safety policies for schools. She has written various academic papers and carried out research for the Australian government comparing internet use and sexting behaviour of young people in the UK, USA and Australia.
